Charger Highlights

GP Recyko

Recyko: Recharge in 3-6 hours
Recyko Speed: Recharge in 2-4 hours
Recyko Pro: Recharge in 1+ hours

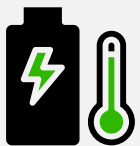

Battery level check

LED indicates the power status, which enable users to sort out the batteries and charge

Auto cut-off

Power cuts off when fully charged or overheat, saves energy and extends battery life

Overheat protection

Keeps monitoring battery temperature and cuts off power when it exceeds a safe value

Bad battery detection

LED indicates the bad and single-use battery

Battery diagnosis and reset

Check battery conditions and recover discharged batteries (for Recyko Pro Charger)

* Based on charging AA 2100mAh batteries

Hearing Aid Batteries

Global Range

Features

- Long lasting power
- 0% Mercury added
- Stable operating voltage
- Wide range of models

Major Applications

Car alarm, keyless entry remotes, toys, electronic organizers

Features

- Excellent high current discharge performance
- Built-in safety mechanism
- Environmentally friendlier
- Wide operating temperature range of -40°C to +60°C and excellent discharge performance at extremely low temperature
- All sizes of CR123A, CR2, CR-P2 and 2CRs are available

Major Applications

Cameras, LED flashlights, memory back-up, medical equipment, meters, photo flash

Features

- High energy density
- Wide range of operating temperatures, from -10°C to +60°C
- Flat discharge curve
- Long shelf life of 10 years
- Environmentally friendlier
- Broad range of sizes and models

Major Applications

Computer memory back-up, camera, remote controls, calculators and thermometers.

Features

- Long lasting power
- 0% Mercury added
- Reliable precise quality
- Wide range operating temperature

Major Applications

Hearing aids and accessories

Carbon Zinc

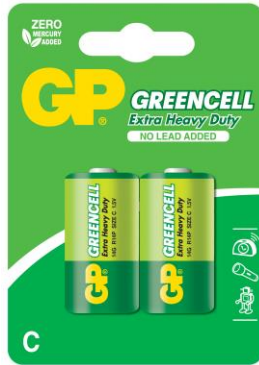

Carbon Zinc Batteries Overview

Our Carbon Zinc batteries strike a perfect balance between value and performance, which are suitable for low to medium powered items.

Wireless Chargers

Global Range

Features

- Available in (10K & 20KmAh)
- Stylish design with Digital % meter
- Fast Charging with PD22.5W
- Multiple device charging

Features

- Value for money
- Available in 5,000mAh, 10,000mAh & 20,000mAh
- USB-C support (1C2A)
- 43% charged in 30 mins
- Multiple device charging

Features

- Crafted with flexible materials which allow it to be stretched and bent 10,000+
- Supporting Quick Charge and with a maximum 18W output
- supports 480Mbps hi-speed transfer of all file types

Features

- Available in 5,000mAh design
- 1m USB-A to USB-C cable included
- 30% smaller than traditional power bank.
- Low power charging for Bluetooth earphones
