

MULTIPURPOSE BOXES WITH LIDS

These boxes are moulded in ABS to give maximum strength but can be easily punched or drilled for individual requirements and to produce a professional looking end product. They are available in black, white and light grey as standard but other colours may be available on request should you require to add that individual touch to your products. All but MB7 have a polished finish.

Printed circuit board slots are provided on certain types to allow ease of manufacture.

The lids are retained by 4 x M3.5 countersunk screws into brass inserts.
