

Technical Information:

IN LINE POWER SUPPLY CASES

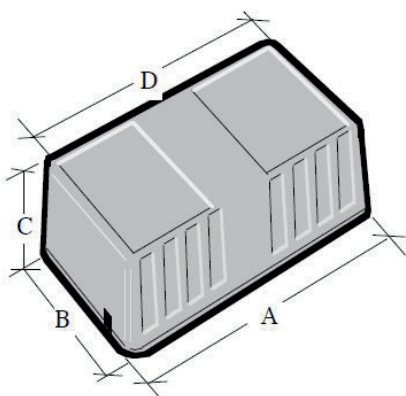

OVERVIEW

PS2 - A power supply style case with attractive rugged appearance moulded in black ABS. The case will house EI54, S35 or S147 size transformers and has space for ancillary components. The top and base are held together by 4 self tapping screws in recessed holes designed to accept standard 9mm self adhesive feet.

Both the PS2 and PS5MEP are available as FR versions manufactured in FLAME RETARDANT ABS.

PART NO	OVERALL DIMENSIONS				COLOUR
